

CMM2 Colour Maximite 2

This page is the start of the CMM2 zone - something interesting and insightful will no doubt appear here soon.

Some example code and full programs, perhaps.

The CMM2 has a page at <https://geoffg.net/maximite.html> and you can download the manuals there.

There's an additional manual on the forum, [Graphics Programming on the CMM2 _v1.0e](#)

Some more pages: There are some examples in the forum thread at <https://www.thebackshed.com/forum/ViewTopic.php?FID=16&TID=12378&LastEntry=Y#150791>

[Example games and other programs](#)

[Efficient code for the CMM2](#)

[Converting older MMBASIC programs](#)

[CMM2 Keyboard compatibility](#)
